14 March 2017

Susanna Harrington
4 Rosewood Terrace,
Belvedere,
NJ 07823

Dear Susanna,

We are delighted to inform you that your donations to the Domboshava Community are paying it forward. The rabbit cage, which you donated \$300.00 USD for, has provided good housing for the rabbits at Chikokonya village, which is concentrating on our livestock projects. By December 2016, we were able to give four villages 10 rabbits each, so that they can continue with the rabbit project. The good thing is that the rabbits are not so expensive to raise, they produce organic manure and their food is from the fields. Now Chikokonya Village has 54 rabbits and seven goats and we will be giving 20 more to our other villages. This gift keeps on giving.

You also donated towards the Shamu Solar water project a total of \$6,200.00 USD. The total cost of installing the solar borehole was \$10,000 and your donation really pushed us a long way to get it done, so we are truly grateful. We are happy to inform you that the project was a huge success, not only is the village getting clean water from underground, the village also now has electricity because of solar energy. This was our biggest project ever and we are so grateful for it. Over 20 households are using this water for their daily use. Shamu village has now embarked on small scale farming using the Solar Borehole. This renewable energy is new to Africa and to have it at Shamu village is such a blessing. We encourage you to visit our Facebook page to see the progress. We will be launching a new website called fishersecotourism.com in April 2017. We are promoting ecotourism and cultural tourism in the Domboshava village community.

We hope you can visit the villages to see where your donations have gone and we are so grateful for what you have done for our communities.

Once again, thank you so much for all your donations and love for others.
Yours truly,

Norma Riepenhausen: Trustee
