A visit must be done to the chief with some goods. Reason being in future we looking forward to getting a piece of land for this group to hold cultural projects.

Action

- A borehole is also needed to be drilled at his homestead.

DZIMWE RAGUTA EVENT

Bhudi Mambo is heading the event and needs a lot of help.

Action

-He is going to consult with Sabhuku so that he can come up with the actual dates that are safe to hold the event, since November is sacred month which starts in October and ends in sometime in December.

-We discussed about the road, which needs fixing and very bad to drive to his homestead.

It was agreed that he must make an appointment with the MP of the area to discuss the way forward so that we get the road fix. The headmaster must be involved so that we have speedy way forward.

-Two extra toilets should be erected or hired for the event.

It was also agreed to involve the community to fix the road temporarily as matter of urgency.

Bhudi Sage, Muzuku Taku Sisi charity and Sisi Tsitsi travelled on this road on the 9/10/22 and we travelled on a very bad road for almost 15km. **The road needs urgent attention.**

IMPORTANCE OF TAKING CARE OF GRAVES

Bhudi Zhou gave an insight of taking care of our dearly departed parents and relatives especially kumusha. Most people neglect this part due to the fact of staying in town. He suggested that we should have topics and teachings especially for our kids so that they know and learn the importance of looking after the departed. Bhudi Zhou also suggested that we should hold workshops and we should be given certificates of attendance at the workshops.

BOREHOLES

The house agreed to put into clusters members since some don't have land but have the relevant skills and passion. It agreed that boreholes were to be installed in areas within Harare and Peri Harare areas, since the projects will be in their infancy but ones they are well on board then the organisation will spread it's wings to other areas step by step.

Borehole is the main factor as a matter of urgency for most people as it is a source of water so that projects can start. We came up with a list of people needing boreholes.

1. Ambuya Nyamhunga - 2 boreholes
2. Bhudi Ishameal - 2 boreholes
3. Ngoshi Family -1 borehole

6. Sekuru Mpofu -1 borehole
7. Sis charity -1 borehole
8. Bhudi Gerald -1 borehole
9. Bhudi Sage -2 boreholes

11. Bhudi Teki?? Waiting for an answer.

PROJECTS TO BE DONE

The house also reiterated the need to come up with income generating projects in order to lessen the burden on Mrs Hove and her peers in diaspora.

It was agreed that members were to first of all carry out agreed projects a.s.a.p and along the way stakeholders from different companies will be invited for seminars and issuance of certificates.

The house highlighted that these initiatives were supposed to push those who would have benefited first, to support those in second line to beneficiaries.
